*Continued Examination Under 37 CFR 1.114*

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 7/3/06 has been entered.

*Allowable Subject Matter*

2. Claims 1, 3-6 and 8-9 are allowed.

In regards to claim 1, although the closest art of record, i.e., Kikuchi (US 6,885,616), discloses an aberration correction apparatus comprising: a first aberration correction element movable along the optical axis of said light beam, and a second aberration correction element having a plurality of phase adjustment portion; however, neither Kikuchi nor any reference of record disclose or suggest an aberration correction apparatus comprising: **a first aberration correction element movable along the optical axis of said light beam for performing coarse correction of the aberration of the light beam; and a second aberration correction element having a plurality of phase adjustment portions each generating an amount of phase change in the light beam to perform fine correction for a residual aberration of said first aberration correction element.**

Claims 3-6 and 8-9 depend from claim 1; hence, they are also allowed.

*Conclusion*
